

Please use a copy of this page to order the door pull series 66 6681 or 66 6630 in variable lengths:

Start by defining the desired version with the pull diameter. Then enter the quantity and overall length in the table below.

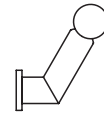

Then add the clearances between the support, or the clearance from the edge in mm. For reasons of stability, the support clearance should not exceed 1200 mm. Finally, cross the desired end cap for the standard versions of Ø 30 mm (stainless steel only).
